Address: Avenida Venâncio Aires, 134/103B, Cidade Baixa, Porto Alegre, RS, Brasil

OBJECTIVE

Software Development Intern at ADP, iOS Developer at Apple Developer Academy, PhD in Chemistry specializing in analytical chemistry, currently pursuing a degree in Cybersecurity and finishing a degree in Systems Analysis and Development. Seeking internship or junior cybersecurity position.

EDUCATION

- **Senac Centro Universitário RS:** Cybersecurity (Feb 2026 – Dec 2028)
 - **Universidade do Vale do Rio dos Sinos (Unisinos):** Systems Analysis and Development (Feb 2022 – Jun 2027)
 - **Universidade Federal do Rio Grande do Sul (UFRGS):** Chemistry Ph.D (2010 - 2014)
 - **Universidade Federal de Santa Maria:** Master's in Chemistry (2008 - 2010)
 - **Universidade de Passo Fundo:** Bachelor's in Chemistry (2003 - 2007)
 - **Certifications:** Intro to AWS Cloud, Bootcamp DIO Tech Fullstack, Python 3
-

RELEVANT PROJECTS

Took part in the development of apps published on the App Store:

- **Acesso+:** provides accessibility information and access routes for restaurants on the PUCRS campus using the MapKit framework. Developed in one month.
- **Totó:** makes speech therapy activities for children at home enjoyable through mini-games, challenges, and the CoreML framework for phoneme differentiation. Developed in 1.5 months.
- **Chêro:** guides users step-by-step through traditional Brazilian recipes, utilizing voice control for hands-free use. Developed in two months.

- **ByteVerse:** a Space Invaders-style game with gyroscope controls using Apple's SpriteKit framework. Developed in one week.
 - **Flipty:** offers coin toss and dice game functionality on iPhone or Apple Watch. Ranked in the top 10 paid apps on the App Store for one week, reaching the top 3 for one day. Developed in two weeks.
 - **Trendy:** suggests unique experiences to try, alone or with friends. Uses CloudKit for data persistence, allowing users to create photo or video memories and share them with friends.
-

SKILLS

- **Languages:** Fluent in English and Portuguese
 - **Security & DevOps:** Vulnerability Management (CVE remediation), SecDevOps, CI/CD pipelines (Bitbucket), Cloud Security (AWS), Infrastructure Monitoring & Observability
 - **Tools & Analysis:** Splunk, AWS CloudWatch, MongoDB, Oracle Siebel, Jira, Confluence, Git/GitHub
 - **Programming:** programming logic, Swift (SwiftUI, UIKit), HTML, CSS, JavaScript, Python, Java, SQL, Progress
 - **Apple Frameworks:** SwiftUI, UIKit, iOS Design, CoreMotion, CoreML, SpriteKit, CloudKit, GameKit
 - **Agile Methodologies:** Scrum, Kanban, Jira
-

PROFESSIONAL EXPERIENCES

ADP Brazil Labs | Software Development Intern

March 2025 – March 2026 (1 year)

- Actively remediated NPM package vulnerabilities (CVEs) using Security Workbench, ensuring application security and compliance with industry standards.
- Managed security-focused Pull Requests and integrated Lint tools into CI/CD pipelines via Bitbucket to automate code quality and security checks.
- Observability & Incident Response: Analyzed and resolved critical production incidents using Splunk, AWS CloudWatch, and MongoDB for log analysis, reducing mean time to recovery (MTTR).

- Cloud Infrastructure: Developed and maintained AWS Lambda functions and established local execution environments to test security patches and features before production deployment.
- Authored comprehensive technical documentation in Confluence to facilitate knowledge transfer regarding system architecture and security protocols.

Apple Developer Academy | PUCRS - iOS Developer

February 2023 – December 2024 (1 year, 11 months)

- Development of projects from concept to App Store release, including business rules, persona ideation, user research, and sprint leadership as Scrum Master.
- Worked with multiple Apple frameworks, API integration, backend development, Airtable, Figma, and GitHub.
- Met strict deadlines with regular feedback meetings, collaborating with diverse teams to enhance adaptability and communication skills.

Câmara de Vereadores de Guaporé - Administrative Agent

December 2018 – February 2023 (4 years, 3 months)

- Provided customer service, managed administrative tasks, maintained the website, and oversaw human resources management.

Universidade Federal do Rio Grande do Sul - Postdoctoral Researcher

August 2015 – December 2015 (5 months)

- Developed methodologies for gas chromatography.

August 2010 – July 2015 (5 years) - PhD Researcher

- Conducted routine analyses and developed advanced analytical chemistry methods.

BAT (British American Tobacco) – Souza Cruz – Research Analyst

August 2011 – October 2012 (1 year, 3 months)

- Researched and developed chromatographic methods for tobacco and smoke analysis.
- Participated in research result meetings and managed the chemistry technician team as team leader.

Universidade Federal de Santa Maria - Master's Researcher

August 2008 – January 2010 (1 year, 6 months)

- Conducted metal determination and sample preparation in the laboratory.
